Skills _____

Programming Languages: C, C++, Java, JavaScript, TypeScript

Frontend: React, Redux, Next.js, TailwindCSS, Bootstrap

Backend: Node.js, Express.js, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Firebase, Vercel

Projects_____

Swedishian Network: swedishian.org 08/2024-Present

• Developed a responsive alumni website's front-end using React.js in collaboration with the backend team.

• Translated Figma designs into a functional ReactJS application with REST API integrations.

• **Tech Stack:** React, Redux Toolkit, Framer Motion, TailwindCSS.

Tech Deal (Full-Stack) Live | Client Repo | Server Repo 04/2024

• Developed a full-stack, responsive e-commerce website with user registration via Google, or email/password.

• Implemented separate, secure dashboards for admins, sellers, and buyers.

• Admins can manage products, handle reported items, and remove sellers.

• **Tech Stack**: TypeScript, Next.js, Tailwind CSS, Node.js, Express, Redux, Firebase, Vercel, MongoDB

SpeakUp(Learning-Platform) Live| Client Repo | Server Repo 05/2023

• Designed and developed a responsive, full-stack language learning platform using React, TailwindCSS, and Node.js/Express.js.

• Integrated robust user authentication methods, including Google, Facebook, GitHub, and email/password login.

• Built features for students, such as class enrollment, management of enrolled classes, and shopping cart functionality.

• Developed admin functionalities, including instructor management, class approval/removal, and feedback handling.

Education & Coures
_____

Diploma in Computer Science
Bangladesh Sweden Polytechnic Institute | 01/2022 - Present

Complete Web Development
Programming Hero (with Jhankar Mahbub) | Completed: 01/01/2023

CS Fundamentals
Phitron | 01/10/2024 - Present
